

GROUNDWATER MANAGEMENT INSTITUTE

SADC - GMI hosts its
First Annual Groundwater
Conference

**26 to 28
September 2018**

The Southern African Development Community Groundwater Management Institute (SADC-GMI) is proud to announce its **1st Annual Groundwater Conference**, to be held in Johannesburg, South Africa, **26–28 September 2018**. Under the theme **"Adapting to the Impacts of Climate Change in the SADC region through Water Security-A Focus on Groundwater"**

This prestigious and first of its kind event is aimed at creating a platform for the advancement of knowledge transfer and collaboration among groundwater professionals from SADC Member States, regional institutions, international partners, the private sector, academia, scientific community, civil society, and the media from the region and beyond.

Join our partners from across the region as they discuss the importance of groundwater resources and the best approaches and cooperative practices necessary to enhance the sustainable management, protection, access and conjunctive use of the resource within the region in light of the impacts of Climate Change.

The full details of the conference will be announced on this platform from **1st May 2018**.
